7.2 Timing the pit stop will be determined using the following methods:

Method 1:

Use the timing charts for the race as provided by timing and scoring to determine the fastest lap times for competitors. By adding 2 minutes plus the time required to traverse pit lane at 40 MPH to this fastest lap time, a total pit stop time shall be determined for each entry. Lap charts shall then be checked to confirm that each competitor did have a total lap time equal to or greater than the previously determined lap time.

A study of the log shall show that all cars having entered and exited pit lane in a total time equal to or greater than 2 minutes plus the time required to traverse pit lane at 40 MPH.

Any non-compliance found by these methods will be reported to the Chief Steward with penalty recommendations.

7.3 Computation of the 40 MPH transit time in pit lane at the maximum allowed 40 mph speed limit is as follows:

Charlotte, 22 seconds @ 40 MPH.
Kershaw, 11 seconds @ 40 MPH.
Road Atlanta, 14 seconds @ 40 MPH.
Road Atlanta Pro Pits, TBT @ 40 MPH.
Roebbling, 19 seconds @ 40 MPH.
Summit Point, 14 seconds @ 40 MPH.
VIR, 12 seconds @ 40 MPH.
